To Our Valued Supplier,

Sunnen Products Company is a global leader in the production of precision bore finishing equipment, commonly called “honing equipment.” As a honing equipment manufacturer, we are alone in this region of the USA and are among the three largest companies in the world involved in this technology.

Our customer base includes medical device manufacturers, including those who manufacture ventilators and respirators critical to the medical response to Covid-19. We also support military repair facilities and firearms manufacturers that provide weapons to the branches of the U.S. Military as well as federal, state and local police.

The product lines Sunnen produces contributes to lifesaving equipment and we are also considered Essential Critical Infrastructure by the Department of Defense. The companies, who are our customers, which manufacture these products, point out the requirement for Sunnen to continue to produce and sell goods to them. As a Valued Supplier of Sunnen we are also requiring you to continue to be able to supply Sunnen with materials to support this fight against the COVID-19 virus and help us to continue to keep our country secure.

Please reference <https://www.cisa.gov/critical-manufacturing-sector> as described by the Department of Homeland Security for essential manufacturing.

During this time, we ask that you please alert us to any issues you or any of your suppliers may have in delivering goods to Sunnen.

Thank you for your cooperation and support.

Regards,

Chris Miltenberger

President and COO
Sunnen Products Company
