

SHO-500 VEGETABLE-BASED HONING OIL

New Renewable/Sustainable Honing Oil is clean, green and 100 percent vegetable-based.

Sunnen® meets contemporary needs for planet friendly industrial consumables with the introduction of SHO-500, a long-lived general-purpose honing fluid based on a renewable vegetable formulation that makes sustainable metalworking affordable and practical. Features of this include:

- Petroleum-free, ideal for general use.
- Formulated without additives that many find objectionable, such as sulfur, chlorine and fluorine.
- Ideal for honing applications where additives cannot be used, such as nuclear and some aerospace parts, or where company policies discourage use of fluids with such additives.
- Acceptable in all parts of the world, containing no material derived from animals.
- Can be used with conventional vitrified honing abrasives and metal-bond superabrasives.
- Listed as BioPreferred(TM) products by the U.S. Department of Agriculture.
- Service life of one year is expected in most applications.
- Backed by Sunnen, with industry leading technical and customer service.

SUNNEN[®]
ABOVE AND BEYOND HONING

THE SHO-500 HONING FLUID... A BREAKTHROUGH IN OXIDATIVE STABILITY

SHO-500 joins Sunnen's two other planet friendly oils, MAN-863 and KG3X, which are listed as BioPreferred(TM) products by the U.S. Department of Agriculture.

Ordering Information:

SHO-500-005

5 gallon (18.9 L) pail

SHO-500-055

55 gallon (208.2 L) drum

SHO-500-330

330 gallon (1,249 L) tote

Specially formulated and backed by Sunnen, with industry-leading technical and customer support
